dent, which occurred between King's Creek and Smyrna. While moving along a straight piece of track the powerful light on the engine showed the body of a man lying with his head hardly more than twelve inches from the cross ties. The engineer sounded the engine whistle, but still the man did not move. Then the engine came to a stop within a few feet of the pros-trate figure. The engineer and fire-man leaped to the ground, and taking hold of the man's shoulder attempted to wake him. There was nothing do-ing, since he was so drunk he was actually stiff. Passengers on the train who had become alarmed at the train's stopping at such a place, sought to make inquiry and were met with the reply, "Nothing the matter, we are just moving a drunk." After working man in a ditch beside the track. The train passed on. The sleeper slept on. A well known Clover man who was in Yorkville Saturday, remarked that liquor shipments to Clover had greatly increased during the past several months. An Enquirer reporter ventured that perhaps more folks were ordering the stuff since the gallon a month law had regulated the quantity one person could order. The Clover citizen discredited the suggestion by stating. "No. sir: that is not it. Over tributed among Ford owners in August. The company is about to write 300,000 checks for \$50 each to be mailed to owners throughout the world. A staff of thirty stenographer come for it. However, the stubborn re sistance of this flank of the forces of Grand Duke Nicholas undoubtedly has enabled him to reform his lines along the rivers Bug and Stry without interference. The river San now takes the place of the Dneister as the scene of a sanguinary battle in the Russian effort to prevent the investment of Warsaw. Petrograd admits the retirement of the Russians to the retirement of the Russians to the retirement of the Russians to the river Colle Line which is 80 miles river Gnila Lipa, which is 80 miles from the frontier, but military experts do not expect heavy fighting along that river. They express the opinion that the next serious battle probably will occur along the Zlotal Lipa river, which runs parallel to the Gnila Lipa, further eastward, where the Russian would benefit by the railroad with which the Tarnop line connects. These operations and plans, according to military men, confirm the theory that the Dneister forces merely were cov-ering for the northern army. The re-organized Russian cabinet has returned to Petrograd after a field conference with the emperor and Grand Duke Nicholas. The Russian press de-votes considerable attention to the reconstruction of the cabinet, the con vocation of the duma, and the mobil ization of industry for war purposes one writer declaring that the pro-nounced "we" and "they" as applied o distinguish the government from the people will now cease to exist. all points were repulsed. -According to information from France, German losses during the past several weeks have been simply appalling. Hundreds of thousands of the finest German troops have been killed or wounded and their places are being taken by untrained men. The German government has ceased publishing its official casualty lists, for the reason, it is said, that their losses in Poland and Galicia have been so great that they would frighten the people of even so well disciplined a country as Germany. It is said that a dying German officer in a French ospital, a few days ago became enraged because German authorities refused to let his wife come to his bedside. The officer is said to have told the French to hold on at least three months longer and they would win because Germany is now short of ammunition and her supply would be completely exhausted by that time While military authorities do not attach much importance to the German officer's statement when the circumstances under which it was made, are considered, still the French say that they can see many other signs of the beginning of the end of Ger-

### Automobile Insurance

While I have never put in any time soliciting AUTOMOBILE INSURANCE and have only issued such as I was asked to write, still it is a FACT that no Agency in the United States is better equipped than mine for handling this clear of hydrogen and few it in the clear of hydrogen and have a clear of hydrogen and hyd this class of business, and few, if any, are as well equipped, unless they also represent the LIVERPOOL AND LONDON AND GLOBE INSURANCE COMPANY, in which I place all business offered. The L. & G. has been doing business in Yorkville for about thirty-five years, and has a record as white as the driven snow. It is to the Fire insurance business in the world what the Mutual Benefit Life Insurance Company is to the life insurance business in the United States.

Don't YOU think, provided you are a thinker that you would be better a thinker, that you would be better satisfied with your car insured in a company with such financial strength as the L. & L. G., and a world-wide reputation for Square Dealing, than in one about which you know nothing? If your car is never destroyed, or damaged, insurance in any compan or none at all, is all right. The L. L. & G., has paid out over \$5,000 for automobile losses in York county during the past year, but I am glad to say that none of it was in my agency.

First National Bank SHARON, - - - 8. C. IT IS NOT WHAT YOU MAKE; BUT WHAT YOU SAVE, that makes YOU RICH.

Sometimes people get rich by other means than Saving; but no matter how rich they get, they do not stay that way unless they SAVE.

Remember Coal Oil Johnny. He inherited millions as the result of a lucky oil strike; but he lost them because he would not SAVE. Remember Russell Sage. He would not buy a dollar shirt if he could make a sevber Russell Sage. He would not buy a dollar shirt if he could make a seventy-five cents shirt do.

Johnny was a spendthrift and Sage was a miser. We do not advise you to be like either of them. However, we would teach that freedom from
